

SMOOTH ZONE EMERGENCY LIGHT TWSA892WM

Self-contained Escap Emergency light with 1 h super capacitor and Lumi Test self-testing

Teknoware Smooth is a small and elegant yet extremely durable emergency light optimised for outdoor use. The Smooth is a combination light, which you can use both as an emergency light and as a 300 lumen general light. Because of the stylish design, the luminaire blends seamlessly into the architecture of the building. The Smooth always consists of two units: the luminaire and a separated indoor electronic unit. The Smooth includes a 5-metre fire-proof installation cable between the units. The luminaire is designed for surface mounting on a wall. The Smooth has an impact-resistant cast aluminium casing (IK10), and it is dust- and waterproof (IP65 for the visible part of the luminaire). The standard colour of the luminaire is graphite grey (RAL 7024), other colours are available on request (e.g. white RAL 9003).

The Smooth Zone is a compact emergency light designed to illuminate open areas efficiently. The luminaire provides a broad, even pattern.
